Creating a Production Build

Gatsby's CLI Development vs. Build Mode

gatsby develop

Starts Gatsby's internal development server

gatsby build

Creates a production-ready build

Gatsby's CLI Development vs. Build Mode

gatsby develop

Starts Gatsby's internal development server

gatsby build

Creates a production-ready build

Gatsby's CLI Development vs. Build Mode

gatsby develop

Starts Gatsby's internal development server

gatsby build

Creates a production-ready build

gatsby serve

Serves the production ready version of the site

Deploying Your Site

Deploying Your Site

Static Site's hosting advantages

- No servers to set up or databases to deploy
- Speed
- Cheap to host

Demo

Deploying our site to Surge

- https://surge.sh

Summary

Deploying our site to Surge

- gatsby develop

- gatsby build

- gatsby serve

Surge

- https://surge.sh

Summary

GatsbyJS

- GraphQL

- React

It's all about building moderns sites and applications!
